

After-school Enrichment Program for Primary and Pre-K

Monday <i>Yoga</i>	Children love doing yoga, especially when it seems like playing! Our children will follow the "Gaiam Kids Yoga" system. This program introduces your child to the joy of fitness while building a strong, flexible body and mind. Yoga is a great way to help develop focus, confidence and creativity with the added benefit of physical exercise.
Tuesday <i>Little Maestro</i>	Children enjoy expressing themselves through music. Our "Little Maestro" program includes all things musical: learning rhythm, listening for the beat, dance movements, singing and even making our own instruments! In this class we strive to teach our children that there is no limit to what they can do with music. Our music program supports language advancement, cognitive and emotional development and social skills.
Wednesday <i>Wild about Science</i>	This program is full of experimentation, exploration and creativity. Science and nature are so exciting for young children, especially in a hands-on environment. We will be providing a truly interactive learning experience—who knew your child might be the next "Little Einstein!"
Thursday <i>The Game Show</i>	What better way is there to learn something new than to play a game! The "Game Show" program inspires children to be independent, creative problem solvers. We will learn teamwork, good sportsmanship and confident decision making while covering a variety of academic topics. Perhaps most importantly, we will be mastering the art of losing gracefully—we can't always win!
Friday <i>Mini Drama Queens and Kings</i>	Most children love being the center of attention. They're naturally eager to perform and show off new skills. We will provide the perfect platform for your children to shine! In this performance art class students will learn to express themselves in multiple ways (speaking, singing, dancing) thus building their confidence.

For your convenience carpool will be provided at enrichment class dismissal from 3 to 3:10 p.m. every day.

You may choose to enroll your child every day or choose any days; call the front desk for details.

Thank you,
Jack & Jill Learning Academy
